NUT TREE NURSERIES

JOHN W. HERSHEY, Owner
Downingtown, Pa.

This Nursery is National Headquarters of Ornamental, Hardy, Grafted Nut Trees. The salvation of our hills.

Get Rich without plowing. Grow crops on shade trees.

"Plant until you're Planted"

LIBRARY

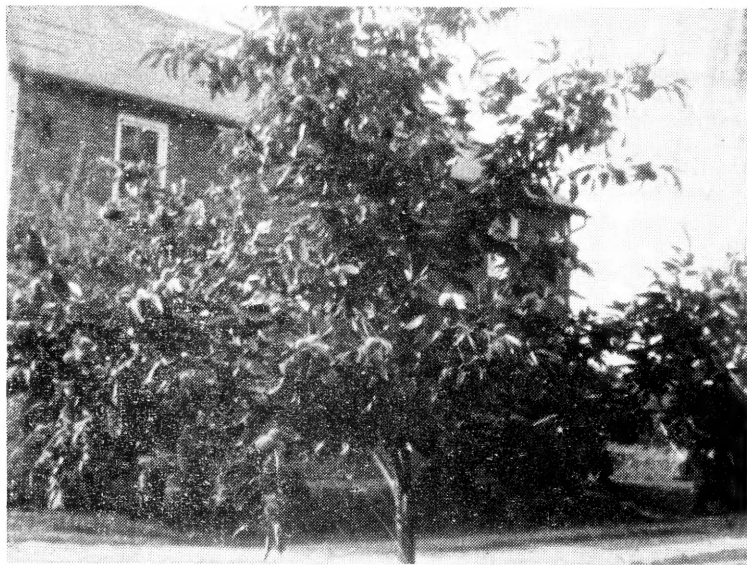

RECEIVED

MAR 11 1958

WE DON'T GROW TREES TO SELL Department of Agriculture
WE SELL TREES TO GROW

Idle People	+	Idle Money	=	Prosperity
Idle Acres		Tree Crops		

NOTE: We're not in business for profit. BUT for love of the land; the trees that grow on it, and to make America Better. Profit is only an "incidental necessity" to stay.

Such bearing just makes me dance in anticipation of the day our 300 trees will be doing the same. Sold 300 lbs. last year and didn't seem like many trees bore. Gosh what futures.

A little beauty like this on your lawn doesn't hurt any home.

CONSULTATIONS BY APPOINTMENT.
READ INSIDE PAGE BEFORE ORDERING
WE WROTE IT TO HELP YOU.

NOTE—LOCATION—4 miles Northwest of Downingtown at Guthrieville on U.S. Route 322 (Horseshoe Pike.) Turn north at stone school house $\frac{1}{4}$ mile past Guthrieville, third place on left. Coming from the West turn left second road past the old Manor Church. From super highway, get off at Downingtown, follow signs to Eagle, turn left at hotel, continue about $6\frac{1}{2}$ miles, see young nut grove on left, turn in, first farm on right. Via. Downingtown, fill up at Sunoco gas and ask direction. NO SUNDAY BUSINESS.

TO OUR FRIENDS AND ENEMIES: To friends, we thank you for support. To enemies, for keeping us on our toes. It helps. Without friends no man can see success. Bankers supply credit, creditors confidence; our staff the brains and brawn; and the customer the "what it takes" to head into another year.

Let us continue to serve you. Thanks for your many good wishes and the same to you.

CALL CUSTOMERS: This is a mail order business. We love callers, if they don't fight with us, and we love to serve you. But, unless you let us know you're coming, can't promise to fill your order immediately. Mail or call in your order. It'll help you get served. And thanks.

WE are CREATIONISTS, not, conservationists.

PLANT, PLANT, PLANT.

HOW WELL WILL AMERICA EAT IN 1975

Think it over and write me about 10 or 100 acres of chestnuts.

THE TREE OF THE FIELD IS MAN'S LIFE: When you spend 10 to a \$100 thousand on a hovel, spend enough on shade AND beauty to make it a HOME. It cools while you inhabit it; warms the cockles of your heart when you sell. A buyer pays well for beautiful landscaping.

Make your slogan "BETTER THINGS FOR BETTER LIVING THRU LIVING THINGS." Let's go America, THE HERSHEY WAY. This folks is the starting at the beginning of—growing our trees in proper soil, organically managed. Then selection of seed for understock and scions to graft with.

Take advantage of quick production by setting our large healthy trees organically grown.

NEXT STEP—We cut the tops—the branches—in short "the brush" off them to balance with the roots sheared off in digging, to give them a chance to start for you. Then dip in a costly wax to keep them from drying out until started.

All these things—plus our 35 years of experience in progeny testing makes just one place to buy better nut trees. That's here.

PLEASE NOTE: **That crook in the stem** of the tree is the "Hall Mark" of quality. If it isn't there, your tree isn't grafted.

TERMS—Prices subject to change without notice.

We like cash with order except where special terms are arranged or from old customers with good credit.

All prices f.o.b. Nursery. Orders up to \$5.00 of small size stock can be mailed—add 13% for all orders to be prepaid. 20% West of Miss. **Minimum prepaid cost** for express plus tax \$2.29.

Extra charges on heavy or distant orders must be paid by the customer.

Our responsibility for transportation ceases when shipment has been delivered to the hands of the carrier (or transportation agency).

No order where an affidavit must accompany invoice will be considered for less than \$10.00.

PLEASE NOTE: We can not guarantee our trees to grow. Planting instructions are attached to the order. For cultural care send for 50¢ booklet.

(CHESTNUTS) (Chinese) *Castanea Mollissima*

Sweet, delicious, Blight resistant.

Will not thrive on damp or heavy soils.

Set 40 x 40 feet for orchard, 28 per acre.

Plant two for pollination. Bears 3-5 years.

These are the finest, heavy calipered largest sized quality trees offered in America.

A sprinkling of nuts cover the block.

They come so nearly true from seed, we recommend the planting of seedlings for home and commercial use. A large field awaits the use of the Chestnut for marketing and hog feed. I've planted 300.

One man reported his 21, 13-year-old trees bearing 1,836 lbs. Want in on it?

A most marvelous opportunity awaits the planters of these blight resistant chestnuts. But remember. We're selling you lawn beauty and nuts or a good bank account in a commercial planting. Trees grow low-spready, with a tendency to crookedness. Don't buy if you prefer a straight clothes tree to future beauty and nuts.

CHESTNUT SEEDLINGS FROM SELECT SEED.

	Each	Dozen	Hundred
8-15 in. Abundance.....		\$10.00	\$ 45.00
1- 2 ft.. Abundance.....	\$2.00	20.00	100.00

10-12 ft., extra heavy.....	6.00	60.00	425.00

SPECIMEN SIZES: We have reports of these bearing second year.

2-2½ in heavy 15 ft. up \$10.00 each; \$100 per doz. Loaded on trucks only.

Chestnuts: Crook or slightly skunt trees when available. 8 ft. up at 20 to 30% off.

CHINQUAPIN (*C. Pumila*)

➤ RUSH, tree form, varies 6 to 25 ft. Nut good size. plant 2 for pollination.

Each
1-2 ft.....\$3.00

THOSE DRATTED GRAFTED CHESTNUT

Yes! They die just as you're ready to lift the mortgage with heavy bearing. Our select seedlings live and bear.

➤ **Japanese Chestnuts—*C. Crenata*.**

Good bearers. Large nuts. Poor flavor—Great game food. 2 yr.....\$1.50 each.

A small quantity of 5-12 ft. sizes same price as regular chestnuts page 3.

GRAFTED THIN SHELLLED BLACK WALNUT

Juglan Nigra

The black walnut has been called the "king of the forest", my wife says it's the "King" of the kitchen. Nature has done the favor of supplying it in a thin shelled package, easily cracked. If you're tiring of the "rat race" of spending every thing you make toward a "living," you can start choking the speed by planting nut trees on your lawn for lots of food, and plant plenty of black walnuts—they're the best.

Varieties

Thomas, the leader and all around nut.

Elmer Meyers, the more I see of this nut the better I like it. So's my customers. For those who like the Stabler, this will take its place—is as thin-shelled, better bearer, better kernel.

Ohio, most ornamental foliage. Best bearer with poor care.

Cornell, (my introduction) a new northern selection of Thomas seedling. Cornell says Cornell matures its nuts at Ithaca in cool summers when native trees fail.

	Each	Dozen
3- 5 ft.....	\$5.00	
5- 6 ft.....	5.50	
6- 7 ft.....	5.75	
7- 8 ft.....	6.50	\$65.00

10-12 ft.....	8.00	80.00
10-12 ft..... Truck loading only.....	10.00	

Stabler: This old and noted variety with thin shell-single kernel, a beautiful lawn tree but poor commercial bearer is offered for those who wish it.

3- 6 ft. (only)..... \$6.00 each.

BLACK WALNUT SEEDLINGS

Selection Thomas strain.

This marvelous strain—comes almost true from seed. Keeps YOU from having an excuse to "not have a nut grove" IF you can't afford the grafted varieties. They're nearly as thin shelled as their parent. It's a fact.

Grafted Butternut Varieties: Love, Craxezy. Good cracker for butternut. Will substitute varieties if necessary. We've had the new experience and fun of every graft failing this spring. Glad at least we can offer older trees.

5-7 ft..... \$10.00

Be a creationist, not a dissipationist!

ENG. OR PERSIAN WALNUT: (*Juglans Regia*)

> Broadview Variety

Grafted on Black. Hardy as the black walnut. Originated in Russia. Stands 34 below. Nut large, attractive as the California nut. Bears in 5 to 7 years.

And the reported heavy bearing justifies our recommending it highly for a commercial orchard. Go to it. I have.

	Each	Dozen
3- 5 ft.....	\$5. 50	\$55. 00
5- 6 ft.....	6. 50	65. 00

Ask for specimen list.

> Carpathian English Seedlings.

Again we're tickled to offer a limited number of this marvelous strain. Tree stands next to a Broadview English we believe helps pollinate it, gives extra superiority. One year plants. \$2.50 each. 3 for \$7.00 P.P.

> PAW PAWS (*Asimina Triloba*)

Here's where I feel chesty. After 35 years of continual trying, I have the secret of easily transplanting paw paw, it's exciting—thrilling, try it. Use 25% teralite mixed with the soil in the hole. Keep watered and mulched; they'll grow. Ours are.

Proud to offer seedlings of the Fairchilds-Zimmerman selections. Plant two for pollination.

	Each
2 yr. dandy seedlings.....	\$2. 50

FILBERTS (*Corylus Avelana*)

(plant two for pollination)

Bears 3 to 5 years—18 feet height

> Barcellona, Nonpareil. Pollenators—Davianna and Du-Chilly. Do extra well in moist soils but grows anywhere.

	Each
4-5 ft.....	\$2. 25
5-6 ft.....	2. 50
6-7 ft.....	3. 00

Hybrid Filberts (*C. Mildredii*)

Plant two for Pollination.

Our observation of the hybrids has been, surer bearers. Hardier than filberts in far north. Try them.

First prize winner at the famous Penna. Farm Show.

> Bixby, and several numbered varieties.

4-6 ft.....	\$3. 75	\$37. 50
6-7 ft.....	4. 00	40. 00
7-8 ft.....	5. 00	50. 00

Filbert & Seedlings

(*Corylus Avelana* & *Americana*)

In 35 years I've found this in the corylus family. Seedlings of certain varieties come nearly true to seed.

Filberts: *Barcellona* & *Nonpareil* Seedlings.

	Each	Dozen
1-2 ft.	\$1. 25	\$12. 50
2-3 ft.....	1. 50	15. 00

> **Hazel:** *Winkler* Seedlings.

2-3 ft.....	\$1. 50	\$15. 00
3-4 ft.....	1. 75	17. 50

We have a limited number of Winkler layers.

2-4 ft.....	\$2. 00
4-6 ft.....	2. 50

Plant trees for shade, beauty and crops. They're delightful.

JAPANESE HEARTNUT—(*J. Cordiformus*). Fast grower, 40 ft. height. Beautiful, semi-tropical foliage, spreading. Nuts, heart shaped, easily cracked, borne in large grape like clusters. Makes an exciting, new adventure in landscaping. A northern species. Don't do so well south of us.

Wright variety-grafted on black walnut.

	Each	Dozen
3-5 ft.....	\$ 7.50	\$75.00
5-7 ft.....	10.00	100.00

JAPANESE WALNUT—(*J. Seiboldii*). A beautiful tree like above described, but darned inferior nut. People want 'em so we offer a few quoted on request.

JUJUBE—CHINESE DATE: *Zizyphus, Jujuba*.

This exotic ornamental from the distant, dry lands of China, is a shiny, small leafed, small and narrow-headed lawn attraction. Fruit: oblong to round; cooks somewhat like a tart apple. Dries, tastes somewhat like a date, with a sub-acid twang and similar seed. No disease or insect damage to date. A real fruit tree for one dreading the lethal sprays of today. Try one or two. Some say they are self-pollinating.

Bears 3-4 years.

Lang, Li, Tusoa varieties. Plant two for pollination.

	Each
Nice 2 yr. 3-5 ft.....	\$5.00
5-6 ft.....	6.00

SHAGBARK HICKORY HYBRIDS *Hickoria Ovata X Cordiformis*

These are really fast growing, sharp stiff foliage, dark green. Nut white, smooth thin shelled. Bears 5-6 years.

Fairbanks: The fastest grower, can pace a maple any day, narrow, columnar.

	Each
3- 5 ft.....	\$6.50
8-10 ft.....	12.00

Stratford: Best for far north

3-5 ft.....	\$ 6.50
6-7 ft.....	7.00
7-8 ft.....	10.00

RED BUD (*Cercis Canadensis*)

As America becomes more conscious of native plants the Red Bud is receiving greater respect, with its purple, rope-like branches of flowers. Maximum height 15 ft.

	Each	Dozen
3- 4 ft.....	\$1.50	\$15.00
4- 5 ft.....	1.75	17.50
5- 6 ft.....	2.50	25.00

7-10 ft.....	7.00	

WHITE RED BUD. (*C. Canadensis Alba*)

The most gorgeous "angel like" white you ever saw—"add a million" to your lawn!

	Each
3-4 ft.....	\$5.00

HARDY NORTHERN PECAN—Bears 7 yrs.

H. Oliviformis.

Marvelous for lawns, very ornamental, Bears in 7 to 10 years.

These varieties selected over many years of observation as the best.

Greenriver and Busseron, plant two for pollination. (Sold out)

HICANS. A *pecan X shellbark, cross.*

All hicans have beautiful shiny foliage. All have excellent flavored nuts. Being hybrids are often slow to bear. Let us select the variety that is best for your locality.

Stock extra nice this year.

Burton. Highest recommended. Good bearer. Each

3- 5 ft.....	\$ 9.00
--------------	---------

AMERICAN BEECH—*Fagus Americana*.

2-3 feet. Ea. \$1.00 Doz. \$10.00 Hun. \$75.00

SUGAR MAPLE (*Acer Saccharum*)

A leading long lived ornamental.

This remarkable crop tree, the source of the finest sugar and sirup in the world has been over-looked too long by forester and agricultural expert.

It is most beautiful, drought resistant and rapid growing. The only reason YOU haven't tapped your few trees is because it wasn't brought to your attention in our fast moving society.

	Each	Dozen
4- 5 ft.....	\$1.50	\$15.00
5- 6 ft.....	3.00	30.00
6- 8 ft.....	5.00	50.00

10-12 ft.....	10.00	

Ask for specimen list.

HONEY LOCUST (Thornless) (*My Introduction*)

Gleditsia triacanthos inermis Sweet pods for cattle feed.

Bears 3-5 years. Famous for growth value.

The agricultural Experiment Station at Auburn, Alabama reports their 8 year trees bore, figured in oats value with 20 trees per acre equal 125 bushels per acre, plus a crop of hay or pasture without cost of annual field preparation, planting and harvesting. Mature trees will grow as much as 300 bushels of Oats food value per acre.

Millwood—This old variety needs no introduction.

Smith—More hardy for northern planting.

Schofer—Originating at Pennsburg, Pa. is 500 miles farther north than the home of other varieties. Hence it's possibilities in hardiness.

	Each	Dozen	Hundred

7- 8 ft.....	4.00	40.00	
8-10 ft.....	5.00		

THE OAKS. *Our strain introduction.*

Sweet acorn strain. Rapid growing selections.

The White Oak. (*Quercus Alba*)

Just 25 years ago I started a simple selection work on the Wm. Penn White Oaks. In two years I was getting answers. Found strains of beautifully upright timber conformation, that grow as rapidly as the maple.

Amazingly easy. And it don't seem like over 25 months since I started. And it was fun! Ever have real fun?

Many people insist on a Black, Pin or Red Oak. The WHITE is JUST as beautiful flaming red in the autumn with the addition of—the BEST oak timber and the BEST acorn for feeding poultry, hogs and wild life.

BURR OAK: (*Q. Macrocarpa*)

CHINQUAPIN OAK: (*Q. Muehlenbergii*)

TURKEY OAK: (*Q. Cerris*)

Ornamental description.

Burr: Terrifically fast upright grower. Foliage, large leafed of rich dark green. Places well among other foliage in autumn for its deep green contrast. Timber rates with white. Fruit large, sweet, cup oddly whiskered.

Chinquapin: Rapid grower, upright. Foliage small, chestnut shaped, turns rich yellow with autumn. Fruit so small a quail can eat. Sweet.

	Each	Dozen
10-15 in.....	\$1.25	

Oaks continued next page.

Plant a tree for a friend in old age. They don't drop out as quickly as humans.

Turkey: A European tree, fast grower, spready and upright. Especially attractive holly shaped, stiff, small leaf. Looks like holly in autumn till dropped by a heavy freeze. Even the great sized acorns are beautiful.

Oaks were made for a back drop for your ranch house; front sentinels for tall homes.

TURKEY	Each	Dozen
12-15 in.....	\$1.25	\$12.50
15-24 in.....	1.50	15.00

WHITE OAK

AMELANCHIER

Juneberry—plant two for pollination

Anyone who wasn't raised with the pleasures of filling up on Juneberries as a kid-enjoyed the early beauty of the first-snowy glow of spring bloom—the rich color of their fruit.

Fruit known in Arkansas as "tame huckleberry." Blue-black and reddish when ripe in June. Tree or bush makes no difference. Just plant some as space permits.

Birds bother your peas? Plant Juneberry bush and trees. THEY FEED the birds while you can your peas.

Often known as Shadberry, Juneberry, or Servisberry

Bird feed, chicken feed, for dessert, ornamental

<i>Stolenifera</i> — Bush.	Each	Dozen
3-5 ft., strong, bushy plants.....	1.00	\$10.00

THE REAL TREE FRUITS OF THE ORGANIC FARMER — TAKES NO SPRAYS

PERSIMMON

Date Plum. *Diospyros Virginiana*

If you don't know these magnificent summer foliaged and colored fruit for autumn effect you're behind in landscaping. Hurry.

➤ **Josephine**, ripens fruit after the middle of September. Sweet, delicious, yellow.

➤ **Early Golden**, comes in a few days later, slightly larger, yellow. Sold out.

➤ **Garretson**: An October ripener. Probably the sweetest of them all. Recommended by the Geneva experimental station as the best for far north.

➤ **Kitch**: Ripe December 1st, small but delicious. This is the prune of the persimmon world. Dries on tree. So high in sugar content you can see the crystals when you break the flesh. Hangs all winter, slowly dropping to the middle of March. Sold out.

Here's a terrible jolt. All we can offer in size due to drought, and poor management, I reckon. Each 2-4 ft.....\$3.75

SEEDLING PERSIMMONS: So superior to those of the wild—so near like the variety they're "tops" for wild life and cattle feed. The persimmon is one of the many tree crops to rely on. Try five acres in a rough pasture.

	Dozen	Hundred
Strong 2 yr. plants while they last.	\$6.00	\$35.00

MULBERRY: (*Morus*) Grafted.

Our shoats were on half feed during the whole mulberry season; sheep love them, roosters lead the hens to them each morning with a sales talk on laying eggs on a cooling, high sugar fruit diet. Birds are a riot every day in the grove detracting their attention from OUR foods.

Squirrels and even crows come to the table. GET ON THAT NATURE BALANCE—let your mulberry feed your birds while YOUR cherries are ripening to preserve.

➤ **Capsrun**—This is a large fruited everbearer. Hardy, very sweet fruit.

➤ **Reichert**—A new hardy everbearing from S.E. Penna. Fruit about same as Hicks but tree more hardy.

	Each	Dozen	Hundred
3- 5 ft.....	\$3.00	\$30.00	\$225.00
5- 7 ft.....	3.50	35.00	275.00
8-10 ft.....	6.00		

SPECIMEN SIZE MULBERRIES: Quoted on request.

TREE BLACK BERRIES

This new and interesting blackberry 18 ft. high, bear 7 tons per acre. Fruit large, sweet delicious. Many measure 1 x ¾ in. With a flavor a yard long AND wide. 2 bushes supplies all the fruit a small family needs for 6 weeks.

	Each	Dozen	Hundred
Strong one yr. canes.....	\$1.00	\$10.00	\$50.00
Heavy 2 yr. canes.....	1.25	12.50	65.00
Extra heavy.....	1.50	15.00	80.00

FOR ORNAMENTAL BIRD FOOD

I offer the BEST in ornamentals. A bird tree is one with thick dense foliage where birds can nest and roost free from predators. The fruit, foliage and design of our selections are extremely beautiful. Put your "raming around" money in such plantings and the family will think their home their heaven and stay to enjoy it. It's the economics of God and no mistake.

BUSH HONEYSUCKLE—Maacki

Folks this is one of the real Bush Honeysuckles. We have it shading our cave and is a gloring show of red berries fall till January. For real beauty with bird feed this is it. Grows 15-18 ft. Try a few. Bird food trees means insect control. Singing birds make singing people. Try it.

Singing birds make singing people. Try it.

3-4 ft.....	\$2.00	\$20.00
4-5 ft.....	2.75	27.50
5-6 ft.....	3.50	
6-7 ft. heavy.....	4.50	
7-8 ft.....	5.50	

VIBURNUM (*Lentago*) (*Black Haw*)

We like this bush all summer because of its leathery shining foliage.

Its flowers in late spring extend the spring blooming beauty. Its bunches of blue black sweet fruit nodding in the breezes hangs till January 1st attracts birds by the hundred—children by the dozen. Plant with 25% sawdust. Height 15-18 ft.

VIBURNUM (*Opulus-Americana*) (**Highbush Cranberry**)

This richly colored red fruited bush glows gorgeously in the autumn and winter sun. Fruit will hang to early winter if birds don't eat them all. Height 12-15 ft. Plant with 25% sawdust in the hole.

Plant two of same species for pollination.

	Each	Dozen
2-3 ft.....	\$1.75	\$17.50
3-4 ft.....	2.00	20.00
4-5 ft.....	2.50

BLUEBERRIES BLUEBERRIES (*Vaccinium Corymbosum*)

HIGH BUSH

Home Grown Blueberries As You Like Them

FAMILY REQUIREMENTS: Six for two. Double the number for the birds, and children.

DISTANCE TO PLANT: Five to six feet apart on row. Rows ten feet apart. How many can you use? Six sold at the dozen rate.

CULTURAL CARE: Remember they **must** have light soil and a heavy mulch. If weeds come through pull them.

PLANTING: It's a good thing to mix the soil 50-50. Peat-leaf mold-and sawdust.

STANLEY, DIXIE, JERSEY

These are nice plants priced for mail order trade. Plant a lot and let them grow.

18-24 inches.....	1.25	12.50

HYBRID POPLARS FOR FAST GROWING PULP AND LUMBER.

These amazing hybrids are the most rapid growing of the poplar. Most resistant to canker; quickest shade, rapid screen. Growth of 7 to 11 ft. per year is reported. Bred by the greatest plant breeder of our time, in the U. S. Forest Service, Dr. E. J. Schreiner.

One of the original trial plantings in our woodlot of "cuttings stuck" 1951 mind you; with droughts of '53, '54, '55, '57, all measured 2½ in up. Some 5 2/5 in, D.B.H. 20 in. C.B.H.

To the keepers of the GOOD EARTH we offer in limited "quantity lots." We are the only source of supply

One year rooted cuttings for forest planting 2-4 ft. These can be carried in small bundle and stuck as an ever-green.

Probably sold out for Spring 1958. Place your order ahead. We'll grow them for you. \$10.00 a doz. \$60.00 for hundred.

LADY APPLE. This beautiful light colored apple with a red cheek has long been known for it's Xmas decoration. Only commercial plantings are in N.W. Fruit sells for \$8.00 and \$10.00 per bushel. Eastern hobbyists and orchard men might well profit by this, while you enjoy their rich beauty on the lawn or orchard. Slow to bear so hurry and plant one.

	Each
5- 7 ft., 2 yr., strong.....	5.00
7-10 ft., 3 yr., strong.....	7.50
